

Course Title Creating Supply Chain Excellence

Duration 8 days

Overview This course is aimed at the needs of both individuals and organizations who are looking to improve their focus on Supply Chain Management and deliver cost benefits to the organization. More organizations are looking at Supply Chain teams to increase their scope and skills in order to deliver benefits in Cost, Quality and Delivery. This course aims to widen skills outside of the traditional 'purchasing role' and stretch the individual and team, increasing confidence in talking bigger and wider issues.

Key Focus Focused on 3 areas: Internal / External and Shared Processes. Reviewing and understanding the benefits of adopting various techniques and methodologies in the pursuit of excellence.
